INTRODUCTION

Final figures from the 1971 Housing Census are shown in this report which is one of a series comprising Volume II (Part 4) of the 1971 Census. Occupied dwellings by tenure are classified by water supply, bath and toilet facilities, for the following areas:

- (i) Canada and provinces, urban size groups, rural non-farm and rural farm (Tables 1, 6);
- (ii) census divisions (Tables 2, 7);
- (iii) incorporated cities, towns and other municipal subdivisions of 10,000 population and over (Tables 3, 8);
- (iv) census metropolitan areas (Tables 4, 9); and
- (v) census agglomerations (Tables 5, 10).

Data in this report are based on 100 per cent data from the 1971 Census.

Definitions of these and other terms, including geographic terms, used technically in this report are discussed in the Introductory Report Volume II (4-1).

All figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports. Additional details on the random rounding technique may be obtained by writing to the Census User Inquiry Service, Statistics Canada, Ottawa K1A 0T7.

(See inside back cover for additional information.)

Ce bulletin qui fait partie d'une série du recensement de 1971 (volume II, partie 4) présente les chiffres définitifs du recensement de 1971 sur les logements. Les logements occupés selon le mode d'occupation sont classés selon l'alimentation en eau et les installations sanitaires pour les secteurs suivants:

- i) Canada et provinces, régions urbaines par groupe de taille, régions rurales non agricoles et rurales agricoles (tableaux 1, 6);
- ii) divisions de recensement (tableaux 2, 7);
- iii) cités et villes constituées, et autres subdivisions municipales de 10,000 habitants et plus (tableaux 3, 8);
- iv) régions métropolitaines de recensement (tableaux 4, 9); et
- v) agglomérations de recensement (tableaux 5, 10).

Les données de ce bulletin sont des données recueillies auprès de toute la population au recensement de 1971.

Les définitions de ces termes et d'autres termes techniques employés dans les bulletins de la présente série sont données dans l'Introduction au volume II (4-1).

Par souci de confidentialité, tous les chiffres publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences. On peut obtenir d'autres détails sur la technique d'arrondissement aléatoire en s'adressant au Service-utilisateurs, Direction du recensement, Statistique Canada, Ottawa K1A 0T7.

ERRATA

The figures shown under "Attending full-time" in this bulletin include persons attending educational institutions other than elementary, secondary schools, and universities, e.g. trade or business schools, technical institutes, teachers' colleges, schools of nursing, etc. Also the "level of schooling" data shown (for both those "attending" and "not attending") understate educational attainment since it does not include training received at such institutions. Details regarding this additional training will be provided in reports in the volume series, e.g. Cat. No. 92-720 - School Attendance and Schooling (1.2-8).

Les chiffres figurant sous la rubrique "Fréquentant l'école à plein temps" dans ce bulletin comprennent les personnes qui fréquentent un établissement d'enseignement autre qu'une école primaire, une école secondaire ou une université, par ex., une école de métiers ou un collège commercial, un institut technique, une école normale, une école de sciences infirmières, etc. De plus, les données relatives au "niveau de scolarité" (tant pour ce qui est des personnes "fréquentant l'école" que des personnes "ne fréquentant pas l'école") représentent mal le niveau d'instruction puisqu'elles ne tiennent pas compte de la formation reçue dans ce genre d'établissements. On trouvera les détails relatifs à cette autre formation dans la publication n° 92-720 de la série des volumes "Fréquentation scolaire et scolarité" (1.2-8).

Recensement du Canada de 1971

ERRATA

Errors have been identified in the figures published in Tables 1 to 10 of Catalogue No. 93-735 (Bulletin 2.4-2, Bath and Toilet Facilities). It would appear that some householders reported having exclusive use of bath and toilet facilities even though they had no piped running water in their dwellings -- a prerequisite for such facilities by census definition. This response error was not detected by census editing and checking procedures. In Tables 1 to 5, the response error was compounded somewhat by a processing error whereby data for bath facilities do not refer to only those dwellings with piped running water (as implied by the table layout) but rather to all dwellings, regardless of the availability of a supply of running water.

This statement will serve to describe the extent of the error and provide revised figures at the national and provincial levels. Revised figures for either geographic areas contained in Report 93-735 may be obtained by contacting Census User Inquiry Service. Estimates of the mean square error for the characteristics covered in the report will be included in the introductory report to Volume II (Part 4) (Catalogue No. 93-734) or may be obtained by contacting Census User Inquiry Service, Census Field, Statistics Canada, Ottawa, KIA 0T7.

Tables 1 to 5

Revisions to the tables for bath facilities were required to:

- (i) correct for the response error, i.e. to exclude those dwellings for which the respondent reported having no piped running water and exclusive use of a bath or shower, and
- (ii) correct for the processing error, i.e. to exclude dwellings with no piped running water in order to maintain consistency with the format of the table.

Table R1 provides a comparison of figures as published and the revised figures which were arrived at in the following manner:

1. Columns A, B, C, D and I were not affected.
2. Column E was influenced by problems in columns F and G, i.e.: (i) Column F, as published, contained 12,385 dwellings for which respondents reported exclusive use of bath facilities despite the lack of running water. These dwellings are purged from the revised figures.
- (ii) Column G, as published, contained 5,225 dwellings with no piped running water which should have been excluded to be consistent with the table layout.
3. In column H, the revised figures exclude 222,435 dwellings which had no piped running water and should, accordingly, have been omitted.

Des erreurs se sont glissées dans les chiffres publiés aux tableaux 1 à 10 de la publication n° 93-735 (Bulletin 2.4-2, Baignoires et toilettes). Il semblerait que certains ménages ont indiqué avoir l'usage exclusif d'une baignoire et d'une toilette sans toutefois avoir l'eau courante, chose impossible par définition. La procédure de contrôle et de vérification n'a pas permis de déceler cette erreur de réponse. Aux tableaux 1 à 5, l'erreur de réponse a été quelque peu aggravée par une erreur de traitement par suite de laquelle les installations sanitaires ne s'appliquent pas seulement aux logements avec eau courante (tel que le laissait entendre la disposition des tableaux), mais plutôt à tous les logements, qu'ils soient alimentés ou non en eau courante.

Le présent correctif décrit la portée de l'erreur et contient des chiffres révisés aux niveaux national et provincial. On peut obtenir les chiffres révisés pour les autres régions géographiques figurant dans le bulletin n° 93-735, en s'adressant au Service-utilisateurs du recensement. Des estimations de l'erreur quadratique moyenne, pour les caractéristiques prises en compte figureront dans le bulletin d'introduction au volume II (partie 4) (n° 93-734 au catalogue); on pourra aussi en obtenir en s'adressant au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa KIA 0T7.

Tableaux 1 à 5

Il a fallu réviser les tableaux sur les installations sanitaires afin de:

- i) corriger l'erreur de réponse, c.-à-d. exclure les logements que les enquêtés ont déclaré ne pas être alimentés en eau courante tout en affirmant avoir l'usage exclusif d'une baignoire ou d'une douche, et
- ii) corriger l'erreur de traitement, c.-à-d. exclure les logements sans eau courante afin de respecter la logique des tableaux.

Le tableau R1 établit une comparaison entre les chiffres déjà publiés et les chiffres révisés qui ont été calculés de la manière suivante:

1. Les colonnes A, B, C, D et I n'ont pas été touchées.
2. La colonne E a été influencée par des difficultés aux colonnes F et G. Ainsi: i) Les chiffres publiés dans la colonne F comprenaient 12,385 logements pour lesquels les enquêtés ont déclaré avoir l'usage exclusif d'installations sanitaires malgré l'absence d'eau courante. Ces logements ont été supprimés lors de la révision des chiffres.
- ii) Les chiffres publiés dans la colonne G comprenaient 5,225 logements sans eau courante qu'il aurait fallu exclure afin de respecter la logique des tableaux.
3. Dans la colonne H, les chiffres révisés excluent 222,435 logements sans eau courante qui n'auraient pas dû y figurer.

Tables 6 to 10

Revisions to the tables for toilet facilities were required to correct for the response error by excluding those dwellings with no piped running water for which respondents reported having exclusive use of one or two or more flush toilets.

Table R3 provides a comparison of figures as published and the revised figures which were arrived at in the following manner:

1. Columns A and F were not affected (column F because it would not be inconsistent to have shared use of a toilet even though there was no piped running water in the respondent's dwelling).
2. Columns B and C were influenced by problems in columns D and E.
 - i.e.: (i) Column D, as published, contained 13,605 dwellings for which respondents reported exclusive use of one flush toilet but had no running water. These dwellings are purged from the revised figures.
 - (ii) Column E, as published, contained 1,345 dwellings for which respondents reported exclusive use of two or more flush toilets but had no running water. These dwellings are purged from the revised figures.
3. Column G reflects the transfer of those dwellings purged from columns D and E.

Tableaux 6 à 10

Il a fallu réviser les tableaux sur les toilettes afin de rectifier l'erreur de réponse en excluant les logements sans eau courante pour lesquels les enquêtés ont déclaré avoir l'usage exclusif d'une ou deux toilettes ou plus avec chasse d'eau.

Le tableau R3 établit une comparaison entre les chiffres déjà publiés et les chiffres révisés qui ont été calculés de la manière suivante:

1. Les colonnes A et F n'ont pas été touchées (la colonne F, parce qu'il est possible de partager l'usage d'une toilette même si le logement de l'enquêté n'a pas l'eau courante).
2. Les colonnes B et C ont été influencées par des difficultés aux colonnes D et E.

Ainsi:

 - i) Les chiffres publiés dans la colonne D comprenaient 13,605 logements sans eau courante pour lesquels les enquêtés ont déclaré avoir l'usage exclusif d'une toilette avec chasse d'eau. Ces logements ont été supprimés lors de la révision.
 - ii) Les chiffres publiés dans la colonne E comprenaient 1,345 logements sans eau courante pour lesquels les enquêtés ont déclaré avoir l'usage exclusif de deux toilettes ou plus avec chasse d'eau. Ces logements ont été supprimés lors de la révision.
3. La colonne G comprend les logements qui ont été supprimés des colonnes D et E.

(1) Refers to the sharing of common facilities by two or more households. - Usage partagé des installations sanitaires par deux ménages ou plus.

1010019394

DEFINITIONS

Dwelling: Refers to a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building, i.e., the entrance must not be through someone else's living quarters.

Owned: Refers to a dwelling which is owned by some member of the household.

A dwelling is classified as owned even though it may be mortgaged. This also includes dwellings under separate ownership in any multiple dwelling structure.

Rented: Refers to a dwelling which is not owned by any member of the household.

Water supply: Refers to water which is piped inside the dwelling and controlled by a tap.

Flush toilet: Refers to a toilet connected to a drainage system and operated by means of water piped into it. "Exclusive use" refers to use by members of one household only.

Bath facilities: Refers to installed bath or shower facilities connected to a drain using piped running water and controlled by a tap. "Exclusive use" refers to use by members of one household only.

DÉFINITIONS

Logement: Ensemble structurellement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c.-à-d. que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre.

Possédé: Logement qui appartient à un membre du ménage.

Un logement est classé comme "possédé" même s'il est hypothéqué. Cela vaut également pour les logements appartenant à des propriétaires distincts dans les constructions à logements multiples.

Loué: Logement qui n'appartient pas à un membre du ménage.

Eau courante: Eau qui est amenée par un conduit à l'intérieur du logement et dont le débit est réglé par un robinet.

Toilette avec chasse d'eau: Toilette raccordée à un système d'écoulement et qui est actionnée par de l'eau courante. Les installations sont à "usage exclusif" lorsqu'elles sont utilisées par les membres d'un ménage seulement.

Installations sanitaires: Baignoire ou douche installée raccordée à un tuyau d'eau courante et munie d'un robinet et d'un tuyau d'écoulement. Les installations sont à "usage exclusif" lorsqu'elles sont utilisées par les membres d'un ménage seulement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaires". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. On peut obtenir auprès du Service-utilisateurs de la Division du recensement de Statistique Canada une formule normalisée sur laquelle l'utilisateur précisera ses besoins et demandera une estimation du délai et du prix.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs de la Division du recensement de Statistique Canada.
